## ROLL HANDLING MADE SIMPLE

The **Heavy Duty Manually Operated Core Expander** is a manually operated core expander for paper and film roles with 3" and 6" cores. Rolls of varying dimensions, with weights up to 1100-lbs (depending on roll size), can be picked up from the vertical position at the floor/pallet level and deposited at random heights in a horizontal position (or the reverse movement).

**Expansion** of the core is automatic.

**Retraction** of the core is by pulling up on the T-handle.

### Additional Features:

- Expander adjustment to achieve roll balance for ease of rotation.
- Toolless exchange for different expanders.
  - 3" & 6" Standard
  - Additional sizes are available
- +/- 15 degrees rotation to line up core and expander.

### Options:

- Rotation Brake
- Anti-Telescopic Device
